Construction Notes: This sweater begins with a long, narrow strip of Stockinette stitch, which becomes the neckband. Stitches are picked up along the side of the strip and worked down to form the yoke. The yoke is shaped with increases along the raglan lines. After dividing the body from the sleeves, waist shaping is worked. The hem is finished with an i-cord bind off. The sleeve stitches are returned to the needles and decreased down to the i-cord bind off at the cuff. There are no charts in this pattern; the eyelet motif at the neck is presented in row-by-row instructions.
