Howdy Twistfans. Lots of you will probably have your eyes on [Sochi](#) this week! Me, I have some complicated feelings about the Olympics, but if you're watching, I hope the folks you're cheering for do really well, and that you get tons of knitting done.

I spent the last two days at a conference on health, and left with a terrible cold! Is that irony? I think it's [Alanis Morissette irony](#), not irony as [classically defined](#). The combo of totally blizzardy weather here in Toronto and the current state of my sinuses has me really craving springtime. You'll see it in my styling, trust me. Or maybe I subconsciously used the colors of the Olympic rings?

This week we're looking at [Quill](#), Kate's contribution to the Winter issue. Though I am going to take a little tangent here in case you missed the release of Kate's newest pattern, lovely [Lacet socks](#) that reference the lacing of pointe shoes. Let me show you them.

Pretty, right?? I can't wait to start on a pair. Anyways, back to the topic at hand- fashion! Let's have a look at this fetching vest.

[Quill](#) is simple, but stands out. It's a great layering piece for transitional weather, and can fit with lots of styles of dress! Make it in a sheepy wool, and it's a perfect vest to wear over collared shirts or flimsy dresses. In a softer fiber blend, wear it right next to your skin like the coziest camisole. Better yet, make two.

How will you wear [Quill](#)?
