

If you receive our newsletter, then you've already seen the newest addition to the Twist Collective library of patterns, and here at Twist headquarters, in the northeast, a pair of warm, cashmere blend colorwork mittens seems like a perfect treat. [Meliae, by Hester Nerine](#) has tons of little details, that we think you'll love. Corrugated ribbing, braids and finished hems, and coordinating patterns on the palm and outside of each hand, make for a mitten that is just as fun to knit as it is to wear. [Cephalopod Yarns Skinny Bugga!](#) Is a durable and luxurious blend of superwash merino, cashmere and nylon, so your mittens will feel great and look great for years to come.

[Find out more about these mittens in our shop.](#)

Oh and if you want to get on our newsletter mailing list, just use our sign-up form to the left of the blog. You'll hear from us once a month and whenever a new edition or pattern goes live.
