

Kate, here! For a while now, I've really wanted to have a tree growing up a sock. Finally, I sat down and did it and the [Twin Oaks socks](#) were born (pretty slowly and with a lot of whining on twitter).

They're knitted toe up with a short row heel. The roots begin in the heel and grow into the trunk and then branches go out all the way around your leg until they intertwine on the front.

We've snuck the [magazine page](#) into the end of our [Sunday Socks](#) section. And the shop page is [here](#).

You probably don't want to knit a huge, woolly, aran sweater full of twisted stitches in the summer. So why not have some twisty fun on a smaller scale in a bamboo blend?
