Construction Notes: This sweater is knit in the round from the bottom up. The body has a shaped waist and asymmetrically placed cables. The number of cables varies depending on the size made. The cable pattern is presented in chart form only. The body is worked in the round to the armholes, then divided for back and front and continued to the shoulders. The sleeves are worked in the round from stitches picked up around the armholes. The neckband is worked from stitches picked up along the neck edge.
