

You can make an increase that creates an **eyelet** similar to that of the yarn over, but smaller.

Insert the left-hand needle, from front to back, under the strand of yarn that runs between the stitch just worked and the next stitch on the left-hand needle

Knit this stitch through the front loop.

This increase is easy to work and produces a delicate openwork effect

Above is a comparison of eyelets (left) and [yarn overs](#) (right).
