11.02.12

Original version

01.03.13

Page 5 - On Chart E1, stitch numbers 1–72 have been added below the chart grid. The numbers begin with 1 on the right side and end with 72 on the left side.

03.01.13

Page 2 - On the Shawl Overview, the seventh star of Eridanus (bottom right) has been added. The corresponding chart has not been changed.

The following changes do not affect the shawl's design; all changes concern moving the chart row count up so it matches up with the written directions after Rounds 1 and 2.

Page 3 - Chart A is now Rounds 3–6. On page 1, the first increase row is now Round 7, not 6.

Page 3 - Chart B is now Rounds 8–13. On page 1, the second increase row is now Round 14, not 13.

Page 3 - Chart C is now Rounds 15–26. On page 1, the third increase row is now Round 27, not 26.

Page 4 - Charts D1 and D2 are now Rounds 28–51. On page 1, the fourth increase round is now Round 52, not 51.

Pages 5–8 - Charts E1–E4 are now Rounds 53–100. On page 1, the last increase round is now Round 101, not 100.

Pages 9–16 - Charts F1–F8 are now Rounds 102–156. On page 1, the last two knit rounds are now Rounds 157 and 158, not 156 and 157.

03.06.13

Page 3 - A page showing constellation placement has been added. This is simply an imposition of the shawl overview on the chart overview.

The following changes do not affect the shawl's design; an incremental bead shift does not change a constellation's overall placement.

Page 6 (page 5 if not v.03.01.13) - On Chart E1, the "star"

(coordinate is by bead position) at row 83, stitch 54 has been moved to row 79, stitch 62. The star at row 78, stitch 57 has been moved to row 88, stitch 66.

Page 14 (page 13 if not v.03.01.13) - On Chart F5, the star at row 142, stitch 290 has been moved to row 152, stitch 290.
