Charts added for shaping the diagonal ribbing on the fronts for each size.

Additional chart clarification made on front charts, and a few minor text errors corrected.

Page 3 - Under Right Front Side, instructions for buttonholes have been added.

Page 10 - On the Right Side Chart, the row numbering has been reversed. The odd numbered rows are wrong side rows, so odd numbers are on the left, and even numbers are on the right. This is the same as for the Left Side Chart on the same page.
